Chair called the site walk to order at 10:35.

We walked the center line of the plan. The residents present had many questions regarding blasting for the road coming off Glendennin. Where? How much? Etc.
We stopped at major intersections and wetlands and reviewed the plans.

Once we reached the end point (cul de sac), the group dispersed into several smaller ones and each made their own way back to Settlers Ridge Road.

Walk ended at 12:10pm.

These minutes respectfully submitted by Alan Carpenter.
